Lowepro | Capture Life

For over fifty years, our specialized backpacks, cases, and camera bags have played an essential role in countless adventures through a range of climates and conditions. Lowepro creates bags for the photographers, videographers, and content creators who explore the most extreme parts of the world and are eager to share their stories.

As technology and forms of expression evolve, so do we. Our

designs continually elevate the way today's gear is carried, protected, and organized, and our promise of extraordinary protection applies to every product we make. From San Francisco to the Sierras, our Northern California home provides a rich environment for our team to design innovative new carry solutions that capture the attention of the marketplace and the imagination of the photography community at large.

In 2017 we joined the Vitec Group, a family of brands that is as passionate about capturing and sharing exceptional images as we are. Together we are exploring new and exciting ways to collaborate and create synergies to the best benefit of our partners and customers. We are thrilled about the adventures that lie ahead. Let's capture life!

What's New

FreeLine Series

Different. Every. Day. FreeLine is a premium, versatile daypack designed for today's storytellers. Different locations, different gear, different people, but one single bag. With our adaptive QuickShelf™ interior, FreeLine is there to protect the tools that capture your vision, wherever you go, leaving you free to focus on the big picture.

Whistler Series

Go Anywhere, Anytime. The second generation of the well-known Whistler backpack is a rugged, four season camera pack for extreme conditions. Redesigned with expanded interior capacity and a new comfort harness to deliver amazing performance for active creatives who carry an equal measure of camera, video and functional outdoor gear.

ProTactic Series

Mission Critical. This second generation of the high-performance, tactical-inspired ProTactic series expands upon its rugged versatility and armored protection with more adaptive interiors and modular exterior attachment and accessories.

Powder Series

Backcountry First. This light and fast alpine camera backpack is the first-choice for the backcountry passionate. It combines the most relevant features of ski and snowboard packs with the extreme performance and durability of Lowepro photo backpacks giving you the possibility to live the best photographic experience in the mountains.
